

Rodacciai®

SCIP number for semi-finished products made of lead-containing materials

According to Article 9(1)(i) of the European Waste Framework Directive 2008/98/EU (last amended by (EU) 2018/851), suppliers of articles that contain Substances of Very High Concern (SVHC) in concentrations above 0.1 % (w/w) have the obligation to notify these articles to the European Chemicals Agency ECHA using the SCIP database (Substances of Concern In articles as such or in complex objects (Products)).

Semi-finished products are considered as articles. The SVHC relevant for the semi-finished products supplied by Rodacciai is lead (Pb).

The following list contains the SCIP numbers of the semi-finished products notified by us. Please take into account that we have grouped our semi-finished products into product groups according to the rules for SCIP notification. Semi-finished products or materials not listed do not contain lead in contents greater than 0.1 % and therefore, have not been notified by us.
